

# Matrix Synapse Miscellaneous

Different things, sometimes advanced and some things that just did not fit in the regular guide.

## Interesting projects

### Add an support Chat on the website

- <https://github.com/Safe-Support-Chat/ocrcc-chatbox>

### Comment-section

- <https://cactus.chat/>

### Create your Diary/Blog with Matrix

- <https://github.com/lukebarnard1/journal> (<https://matrix.org/docs/projects/client/journal>) (discontinued)

### Collaborated writing

- <https://github.com/YousefED/Matrix-CRDT>

### Post to channel, autopost to Twitter and/or Mastodon

- <https://github.com/qbit/mycete>  
### Moderating Matrix
- <https://github.com/matrix-org/mjolnir>

## Synapse maintenance tools

- [https://matrix-org.github.io/synapse/latest/usage/administration/database\\_maintenance\\_tools.html](https://matrix-org.github.io/synapse/latest/usage/administration/database_maintenance_tools.html)

## Show the public rooms on the server

- [https://example.com/\\_matrix/client/r0/publicRooms](https://example.com/_matrix/client/r0/publicRooms)

## Coturn

Coturn is a turn server and it is used for 1:1 voip calls through the client (example: riot).

```
apt install coturn
```

Edit Config files

opening ports

## Installing Bots

Matrix Synapse currently does not have a concept of bots, a bot is just a normal user. Usally there is a config and a .py file, download the files, unpack them and run the .py file. Running and downloading things via pip is not recommended.

Install python3

```
sudo apt install python3
```

then install pip

```
sudo apt install python3-pip
```

then matrix-bot-api from pyp

```
pip3 install matrix-bot-api
```

and finally fill out the config and start it

```
python3 pollbot.py
```
