

# Riot.im

## Proxy

Create a riot.cmd file wherever you want with the following lines

```
START "" "%LOCALAPPDATA%\riot\Riot.exe" --proxy-server=http://proxy:3128
```

## Multiprofile

Create a two \*.cmd files (ex. *riotprofile1.cmd* and *riotprofile2.cmd*) where you add the following line

```
riot_profile1.cmd
```

```
START "" "%LOCALAPPDATA%\riot\Riot.exe" --profile=profile1
```

```
riot_profile2.cmd
```

```
START "" "%LOCALAPPDATA%\riot\Riot.exe" --profile=profile2
```
