

# Riot.im

## Proxy

Create a `riot.cmd` file wherever you want with the following lines

```
START "" "%LOCALAPPDATA%\riot\Riot.exe" --proxy-server=http://proxy:3128
```

## Multiprofile

Create a two `*.cmd` files (ex. `riotprofile1.cmd` and `riotprofile2.cmd`) where you add the following line

`riot_profile1.cmd`

```
START "" "%LOCALAPPDATA%\riot\Riot.exe" --profile=profile1
```

`riot_profile2.cmd`

```
START "" "%LOCALAPPDATA%\riot\Riot.exe" --profile=profile2
```
