

# Content

This is my homepage dealing with topics I'm interested in, stuff I do at work and my [hobbies](#) or how i contribute to [OpenStreetMap](#). I seperated [digital](#) because it is big enough for its own namespace. I am going to add later more like my travels with the motorcycle or my recipes.

Right now there is one namespace, "Sysadmin", that was meant as a template for other sysadmins who are trying to set up Dokuwiki for their company. It contains some example pages, descriptions and templates.
